

You said, We did 2009/10

Throughout 2009 we held seminars and conferences with residents, staff, board members and stakeholders. We discussed a diverse range of topics across the full range of services provided by the Associations.

We recorded the feedback we received at these events and have used it to inform the objectives we have set for 2010. In many cases the ideas, suggestions and improvements you gave us at these events have already been put in place. The information in this publication summarises some of the outcomes from these events.

We really hope to achieve the same excellent results at the seminars and conferences in 2010/11 and we look forward to seeing you there.
